

World first!

Mobile Himalayan salt cabin

The today's man and children too are put on several health harming effects. Electric tools, smog and fume damage the natural balance of positive and negative particles in the air. Our general condition depends on the quality of breathed air. If the air contains too much positive ions, it causes bad general condition, physical and psychical weakness, insomnia and immune weakness. The himalayan salt is to our knowledge the most clear and beneficial salt. Cca 250 millions years ago in the Trias (Mesozoic), the Sun evaporated the vast global ocean leaving fully clear crystal salt behind in the bays. These salt-islands had been put under the earth during the formation of the Himalaya Mountain cca 70 million years ago, the islands were pressed because of the high pressure. So this salt is dated back to those time, where the Earth was still in its ancient and natural balance and is not obtained from today's contaminated seas. Today, this crystal salt is buried deep in the Himalaya and will gathered until today by hands.

Himalayan crystal salt and health

Then natural crystal salt is not a medicine, but a food in a true sense. Through its special abilities it has neutralizing, purifying, balancing and energy tax effect. There is no better natural method than the combination of crystal salt solution and water. It is able to restart the homeostasis and get balance in the organism. It is since centuries known that the climate of salt caves and mines has healing effect for diverse airway and respiratory organ diseases, such as skin and joint problems. The salt therapy is a detoxification method. It increases the organism's purification, because the salt has an intense solvent effect and the inspired salt crystals facilitate the self cleaning of the airways. The salt cabin built with Himalayan salt offers natural healing method for our health's save. In the Himalayan salt cabins there is a special bacterially very pure micro climate. Its air with equal temperature (20-22°C), minerals and beneficent micro organisms assures profitable negative charge. Further it contains for our organism important chemical elements – iodine, potassium, magnesium, selenium – and other helpful materials.

The most important factor of healing effect of himalayan salt cabins is the effect on mucosa and muscles of bronchia. These natural minerals warrant the effectivity of the salt therapy. One hour in a himalayan salt room is like one day on the seacoast

Individual characteristics of the Himalaya salt:

- contains 84 minerals and trace elements
- fully clear, not contaminated;
- because of its evolution circumstances and composition has the salt unique colours and beauty

Effects of himalayan salt therapy:

by using the therapy, one can avoid not only bronchial diseases, but also allergical illness, hayfever, weakness of immune system. It improves the sleeping quality. By asthma patients sinks the number of crises. It encourages the exercise capacity.

Whom is it recommended?

- for healthy people too it encourages the exercise capacity because of its lounge cleaning effect
- for smokers;
- in case of bronchial inflamed diseases
- croup, hayfever, catarrh, stomatitis, nasal cavity diseases, ear infection, vocal
- chord infection
- allergic diseases
- asthma patients
- sportsmen
- in case of psoriasis and eczema.

Where can it be placed?

- At home
- In sanatoriums
- In kindergartens
- In daycare centers
- In schools
- In wellness hotels
- In wellness centers
- In beauty salons
- Overall where there is enough place

Advantages:

- Everlasting piece
- Healthy
- It can be also made in individual size
- Multifunctional
- Design piece
